## **NNCA and Siemens Sign a Memorandum of Understanding for the Development of the Smart Energy, Smart City, Smart Building, Smart Mobility Infrastructure, and Smart Industrial Automation Systems**

**HANNOVER** – Nusantara Capital City Authority (NNCA) and Siemens, a leading provider of technology and expertise in the modern energy sector, have signed a Memorandum of Understanding (MoU) to collaborate on the development of the smart energy sector, smart city, smart building, smart mobility infrastructure, and smart industrial automation systems in the new capital city of Nusantara.

Chairman of Nusantara Capital City Authority (NNCA), Bambang Susantono said that he is delighted to collaborate with Siemens in the development of Nusantara towards green and smart city. “This MoU marks an important step towards achieving our goal of making Nusantara the centre of innovation and technology that attracts the development of green business and economy in Indonesia. We believe that the collaboration with Siemens will bring valuable insights and expertise to the development of smart city concepts in Nusantara, and we look forward to working closely with them in the implementation of this project, he added.”

The MoU aims to strengthen the collaboration between the two parties and exchange ideas and experiences in the planning and implementation of smart city concepts in Nusantara, which supports the development of a green economy in Indonesia.

The scope of this collaboration includes:

1. Establishing a working group with relevant stakeholders for the development of the smart city scope.
2. Conducting preliminary feasibility studies in specific fields (to be determined later) based on available information.
3. Exploring strategic collaborations in the implementation of projects.

As additional, NNCA aims to make the new capital city of Nusantara a center of innovation and technology that attracts the development of green business and economy in Indonesia. NNCA intends to build the new capital city of Nusantara into a smart city that uses digital technology to enhance its capabilities, reduce costs and consumption, and engage more actively and effectively with its citizens.

Siemens, as a technology and expertise provider, is committed to supporting the development of the smart energy sector, smart city, smart building, smart mobility infrastructure, and smart industrial automation systems in Nusantara. “The MoU is expected to contribute to the realization of these goals and strengthen the partnership between the two parties,” said Bambang.

*Nusantara, officially the Capital City of Nusantara is the future Indonesia capital as stipulated and regulated by Law No. 3 of 2022. Located on the east coast of the island of Borneo. Nusantara covers area of almost 4x Jakarta, which is approximately 256,142 hectares and sea covering 68,189 hectares. Nusantara will change the orientation of development to become more Indonesia-centric and accelerate the country's economic transformation. The Nusantara National Capital Authority (NNCA) is the Authority executive to managing and governing the Nusantara. NNCA is a cabinet level-agency formed by Indonesian government, working directly under the President of Indonesia. The Authority will support preparation, construction and final move to Nusantara.*
